CERTIFIED CLOUD COMPUTING ENGINEER AND SOLUTION ARCHITECT with over 5 years of experience in IT infrastructure, Azure cloud services, and enterprise system administration. Proven ability to lead complex cloud transformations, enforce governance, and improve operational efficiency.

Successfully led multiple cloud migration projects, improved system uptime to 99.99%, and reduced manual processes by 40% through automation. Strong expertise in infrastructure, including Code (IaC), Microsoft Entra ID, and cloud governance. Known for driving standardization, mentoring teams, and aligning IT with business objectives. I am committed to consistency and believe in empowering individuals to reach their full potential.

TECHNICAL SKILLS EXPERTISE:

- IaC (Infrastructure as code) specialist (Terraform, Bicep, ARM, GitHub)
- Infrastructure Architect
- Microsoft Azure Cloud Specialist
- Entra ID (Azure AD) and Governance
- DevOps Engineer
- Cloud Support
- Cloud Migration
- Azure Infrastructure as a Service (IaaS)
- Platform as a Service (PaaS)
- System Administration
- Power Platform (PowerApps, Power Automate, Power BI)
- Microsoft 365
- Virtualization and Storage (Virtual Machines, Hyper-V, SAN, iSCSI, and VDIs)
- Business Continuity and Disaster Recovery
- Azure Security (Defender Products)
- Microsoft SQL
- Server Management (Active Directory, DNS, DHCP, GPO)
- Scripting and Automation (PowerShell, Python)
- Customer Support
- Customer Management
- IT Service Desk
- Communication Skills
- Azure Blueprints
- Express route, VPN & VNET, Firewalls, NSG, TCP/IP, VLAN, and Switches
- Windows (XP/Vista/8/10/11/ All Server Versions)

TOOLS:

GitHub Actions, IaC Terraform and Terraform Cloud for Business, Azure Portal, Microsoft Teams, VScode, PowerShell, CLI, Office 365 Suite, Azure Pricing Calculator, Azure Storage Explorer.

SKILLS:

Process Improvement through frequent team audits | **Leadership** through effective listening and coaching | **Presentation Skills** with stunning PowerPoint visuals and industry best Architectural design tools | Concise yet **Effective Communication** with peers and senior management | **Collaboration** by engaging with internal and external teams

EMPLOYMENT & EXPERIENCE

ABC OF CLOUD COMPUTING (United States)

Cloud Infrastructure Engineer 12/2024 Till date

- Designed and implemented the Azure Landing Zone for migration, accelerating cloud migration and reducing provisioning time by 60%.
- Automated infrastructure deployments with GitHub Actions, Bicep, ARM, and Terraform, improving release speed and reducing human error by 45%.
- Key Player in the hardening of the security of the Azure platform
- Help Product Owners develop new products and integrate services

- Championing the Azure Technical Working Group
- Standardization of Infrastructure (IaC) as code policies using industry best tools
- Maintained and updated Confluence documentation, improving onboarding efficiency by 35%.
- Established governance and guardrails that improved policy compliance by 50%.
- Led the hardening of Azure platform security, resulting in a 30% reduction in vulnerabilities during audits.

Dignus Group LTD (United Kingdom)

ICT System Engineer 05/2024 -

- Designed. Implement and maintain an enterprise-grade infrastructure leveraging Microsoft tools (Azure, Windows Server, Active Directory, Exchange, etc.)
- Automated repetitive admin tasks using PowerShell, reducing manual overhead by approximately 40%.
- Support and improve Microsoft 365, including Teams, OneDrive, and SharePoint.
- Build scalable, secure environments in Azure with best practices around governance
- Troubleshoot system issues and lead root cause analysis to prevent future occurrences
- Policy Definition and Enforcement
- Periodic Knowledge Transfer to team members
- Document system architecture, procedures, and support workflows

54Gene, LTD (Nigeria)

Cloud Engineer 05/2023 – 04/2024

- On-premises to cloud migration
- Responsible for maintaining cloud infrastructure (IAAS), ensuring a 99.99% availability SLA is sustained.
- Deployed and managed Microsoft 365 for the organization.
- Intune and MDM
- Implemented the deployment, patching, upgrading, and migration of on-prem, virtual, and cloud environments.
- Performing administrative tasks in Azure Active Directory.

ICM Capital LTD (Abuja Office)

IT Administrator 08/2021 – 04/2022 | Remote Consultant Part-time (04/2022 -09/2023)

- Provided remote and on-site support for domestic and international customers, including Platform (MT4) integration.
- Migrated all on-premises IT resources (Storage, VMs, Identity Service, etc.) into the Microsoft Azure cloud platform.
- Implemented a new cloud data infrastructure to achieve a reduction of data processing time by 50%
- Built security into new product features to achieve 100% industry compliance and best practices.
- Created company policies and procedures governing corporate IT security, email and Internet usage, access control, and disaster recovery.

Ngonyama Okpanum & Associates, Abuja

IT Administrator (Cloud) 12/2020– 07/2021

- Performed various tasks involving managing IT infrastructure for mission-critical business services to ensure continuity. Successfully implemented Virtualization and Cloud Migration of on-premises workload to Azure, creating a hybrid environment while minimizing downtimes.
- Developed and implemented Business Continuity and Disaster Recovery (BCDR) Plans for on-premises Compute-optimized Workstations, servers, and cloud VMs to achieve an SLA of 99.99%
- Used Azure Fileshare and Azure File Sync to drive collaboration across global branches using Geo-replication redundancy of 99.99% availability.
- Utilized Microsoft Azure dashboards and analytics, designed and implemented performance operations, which led to a significant behavioral change in IT service management.
- Set up and trained 10 members of staff on Microsoft Azure

Ngonyama Okpanum & Associates, Abuja

Information Systems Manager 11/2019 – 12/2020

- Supported the management team in implementing modern IT systems and infrastructure upgrades, leading to seamless workflow and collaboration.
- Led service improvement initiatives for disaster recovery, redundant IT architecture, and Active Directory Management, achieving 99.5% uptime in our environment.
- Provided level 3 support for all specialized workstations, supercomputers, and server farms for 3D architectural designs.
- Troubleshooting, diagnosing, and resolving hardware, software, and other network and system problems.
- Implemented new system installation and setup and configured it to meet business needs.
- Proactively monitor the IT infrastructure and take appropriate actions to maintain it.
- Regularly performed and documented backup/restore operations as defined by the technology department.
- Recommended appropriate technologies for smooth business operations
- Carried out local (Active Directory) and server administration, network security, and firewall maintenance.
- Carried out general repairs and routine checks on computers, network, software, OS, and anti-virus update/patching to ensure operational policy compliance.

EDUCATION

HND. Management, 2017

Abia State Polytechnic, Nigeria.

Diploma in Computer Engineering

FlamyTech Computer School Location, Lagos, Nigeria

Microsoft Learn Academy

Microsoft Learn – Solutions Architect, Azure Administrator, and Azure Security Engineer

PROFESSIONAL CERTIFICATION

- Microsoft Applied Skilled Administrator AD DS
- Microsoft Applied Skilled: Deploy and configure Azure Monitor
- Microsoft Applied Skilled: Secure storage for Azure Files and Azure Blob Storage
- Microsoft Certified: Azure
- Microsoft Certified: Security, Compliance, and Identity Fundamentals
- Microsoft Certified: Azure AI

- **REFEREES:** Available on demand
